

My Community Environment

Transform your communities environment with these practical blueprints to make your community cleaner & greener.

Hello
Community
Change Maker
We're glad
you're here.

You've come to the right place because
you're a **changemaker** looking to create a
positive impact in your community!

You're part of our mission.

So let's get started!

Our Three Key Goals

Creating sustainable jobs in your community that includes Informal Recyclers & The Homeless/Unemployed

Empowering the community to actively take care of the environment

Embed the spirit of environmental care & volunteerism across the community

What We'll Cover

01

Community
Clean Up and
Beautification
Day Ideas

02

How to
Integrate
Informal
Recyclers

03

How to Start a
Community
Sortation
Centre

04

How to Start a
Community
Green
Innovation Hub

Mobilising a Community Clean Up or Beautification Days

01 Smart Communities Tech Platform

Using the Smart Communities Platform you are able to engage with the community to plan community clean up and beautification events

02 Community Event Management

Work with the Smart Communities Network to plan your events and connect with local stakeholders to make your events a success.

03 Community Volunteer Coordination

Work with Smart Communities to use our platform for volunteer recruitment, management and volunteerism recognition.

Informal Recycler Integration

01 Smart Communities PRO Alliance Network

Working with Smart Communities we will connect you to our network to help you integrate informal recyclers into your community with ease.

02 Community Awareness Program

Using the Smart Communities Platform you can create awareness and training resources for the local community to help support the integration of the informal recyclers

03 Informal Recycler Community Alignment

Educating the recyclers on how to keep the environment, their dwellings and waterways clean.

Community Sortation Centre

01 Identify Sortation Centre Space

Smart Communities can help you with the formalisation and permissions for your identified space.

02 Sortation Centre Plan & Value Chain

Smart Communities will provide you with the sortation centre plan.

03 Sponsor Identification

Smart Communities will guide and connect you with sponsors to enable and finance your community sortation centre.

Community Green Innovation Hub

01 Identify your community green space

You will identify the best green space or park within your community and Smart Communities will help you to develop your blueprint for this space.

02 CrowdFund your Greenspace Set Up

Smart Communities will help you set up your community crowdfunding platform to raise funds for the establishment of your green hub. We can also help you provide Section 18A tax certificates to donors.

03 Space Sustainability Plan

Smart Communities will help you to set up your CBO and plan your activities to grow and sustain the Green Hub in your Community.

Get involved Empower others

Through Learning

We have existing blueprints and strategies that we have developed over the years to support your Community Greening Efforts.

Through Our Tech Platform

We can support your community environmental plan roll out.
